

**Frankenweenie told from
different points of view by
the 4B (Spanish LV2)**

Today, Mr. Rzukruski said us “The science competition is open!”. When the school was finished, I went to Victor’s house to ask him if he wanted to do the science competition with me. He didn’t want that. The next day I saw Sparky who normally was dead. The next day, I returned to Victor’s house tell him I knew his dog was alive. So, I went with him to his attic and he showed me his machine with which he revived Sparky .When I saw that, I went to a shop to buy a dead fish, and Victor tried to revive him with his machine. But the fish became invisible. Then I showed my invisible fish to Toshiaki, Bob and Nassor but the tallest boy told me there was no fish in my bowl. So I was really dispirited and heavy hearted. For the science competition, I stole Victor’s experiment to revive a rat. My experiment wasn’t a success because the rat became a monster and he terrorized all the people of New Holland. Nassor’s and Toshiaki’s experiments didn’t work as well but the results of all these experiences scared all the population.

Finally Victor and Sparky killed all monsters but Sparky died again. The villagers revived Sparky using their car’s batteries .The dog’s life continues...

I'm Sparky. I'm the best friend of Victor and Persephone is my friend too. I love playing with a ball.

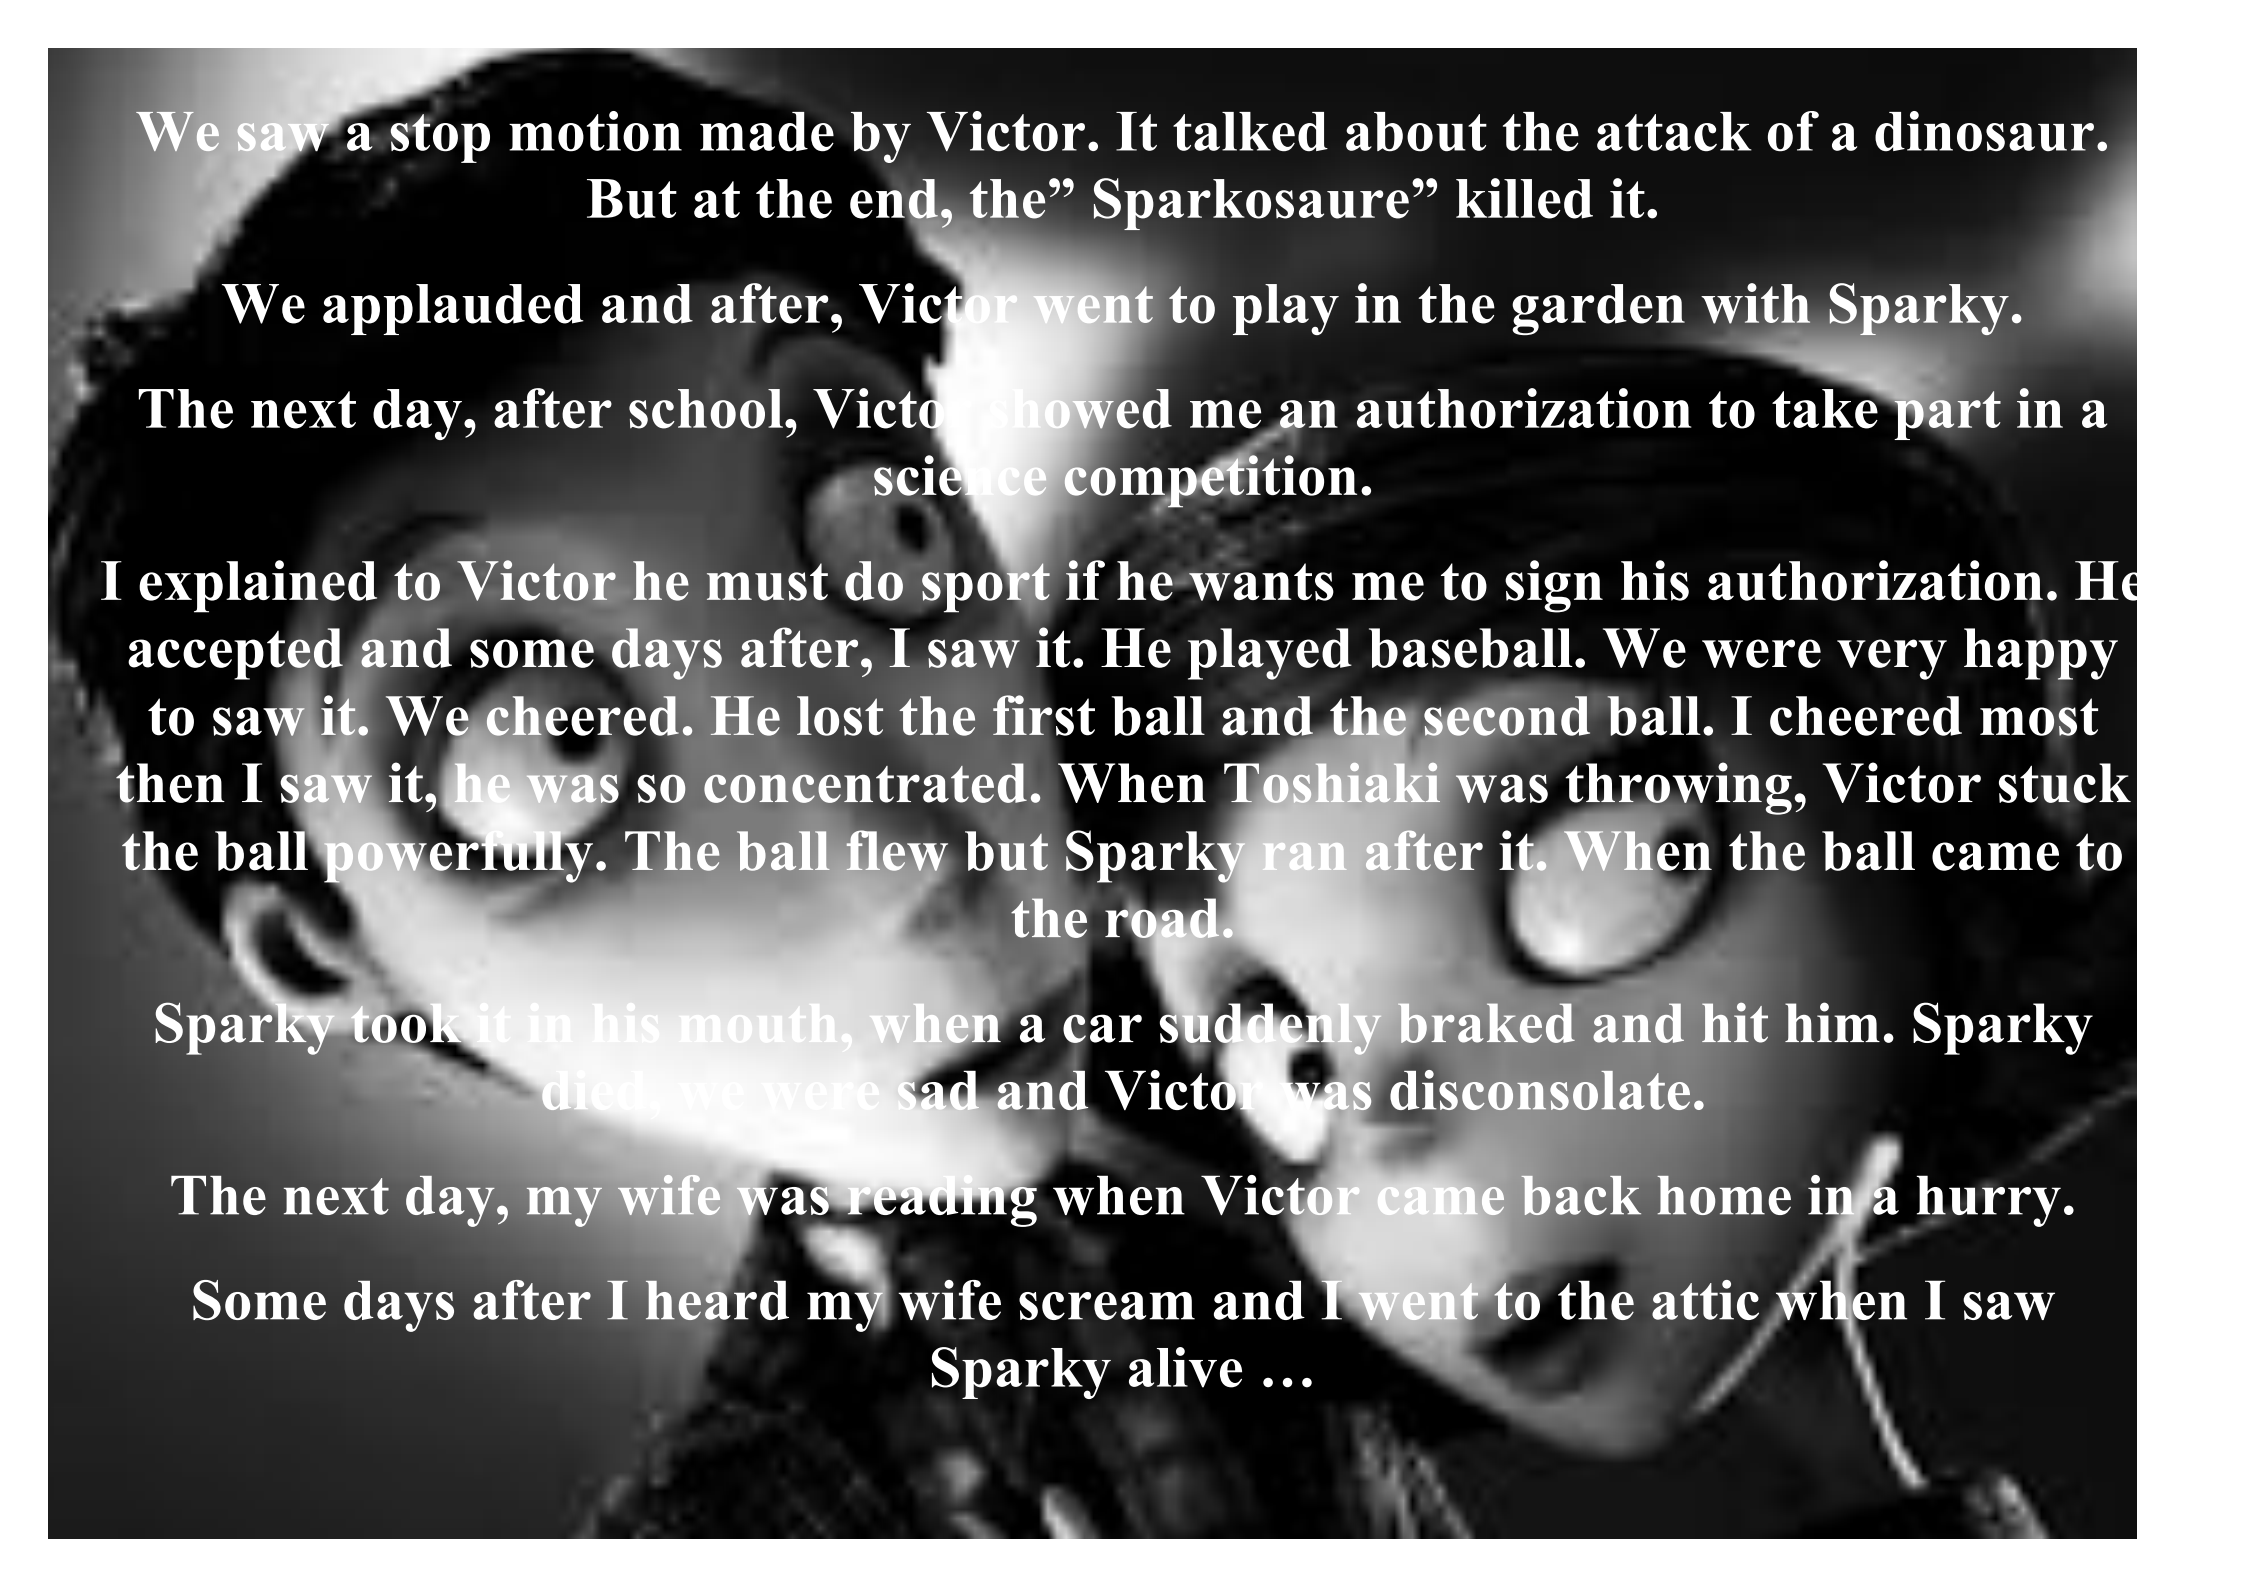

One day, at a baseball match, I wanted to catch the ball that was on the road but a car came and killed me.

When I woke up, I saw Victor. I didn't understand. I lost my tail and I was worried and scared. Victor went to school and left me in the attic. I went out and I didn't understand because the neighbors were scared of me. I heard somebody in the stairs and I thought it was Victor but I saw his mother instead. I was scared and she screamed. I ran away and I went to the pet cemetery. I smelt my odor next to a tombstone and I waited here.

I saw Toshiaki and Nassor then Victor came. I went to a party with a lot of people and I saw monsters. I only wanted to save people but they misunderstood me, they were wicked. They chased me to the mill. Mr. Whiskers attacked Elsa and Victor and I saved them. I was very happy. Mr. Whiskers caught me in the fire and his heart was pierced by a stick of wood. The mill crumbled on me and after I remember nothing...

When I woke up people and cars circled me. I licked Victor's face and kissed Persephone on the nose. I didn't understand but I was very happy !

Waf !

**We saw a stop motion made by Victor. It talked about the attack of a dinosaur.
But at the end, the” Sparkosaure” killed it.**

We applauded and after, Victor went to play in the garden with Sparky.

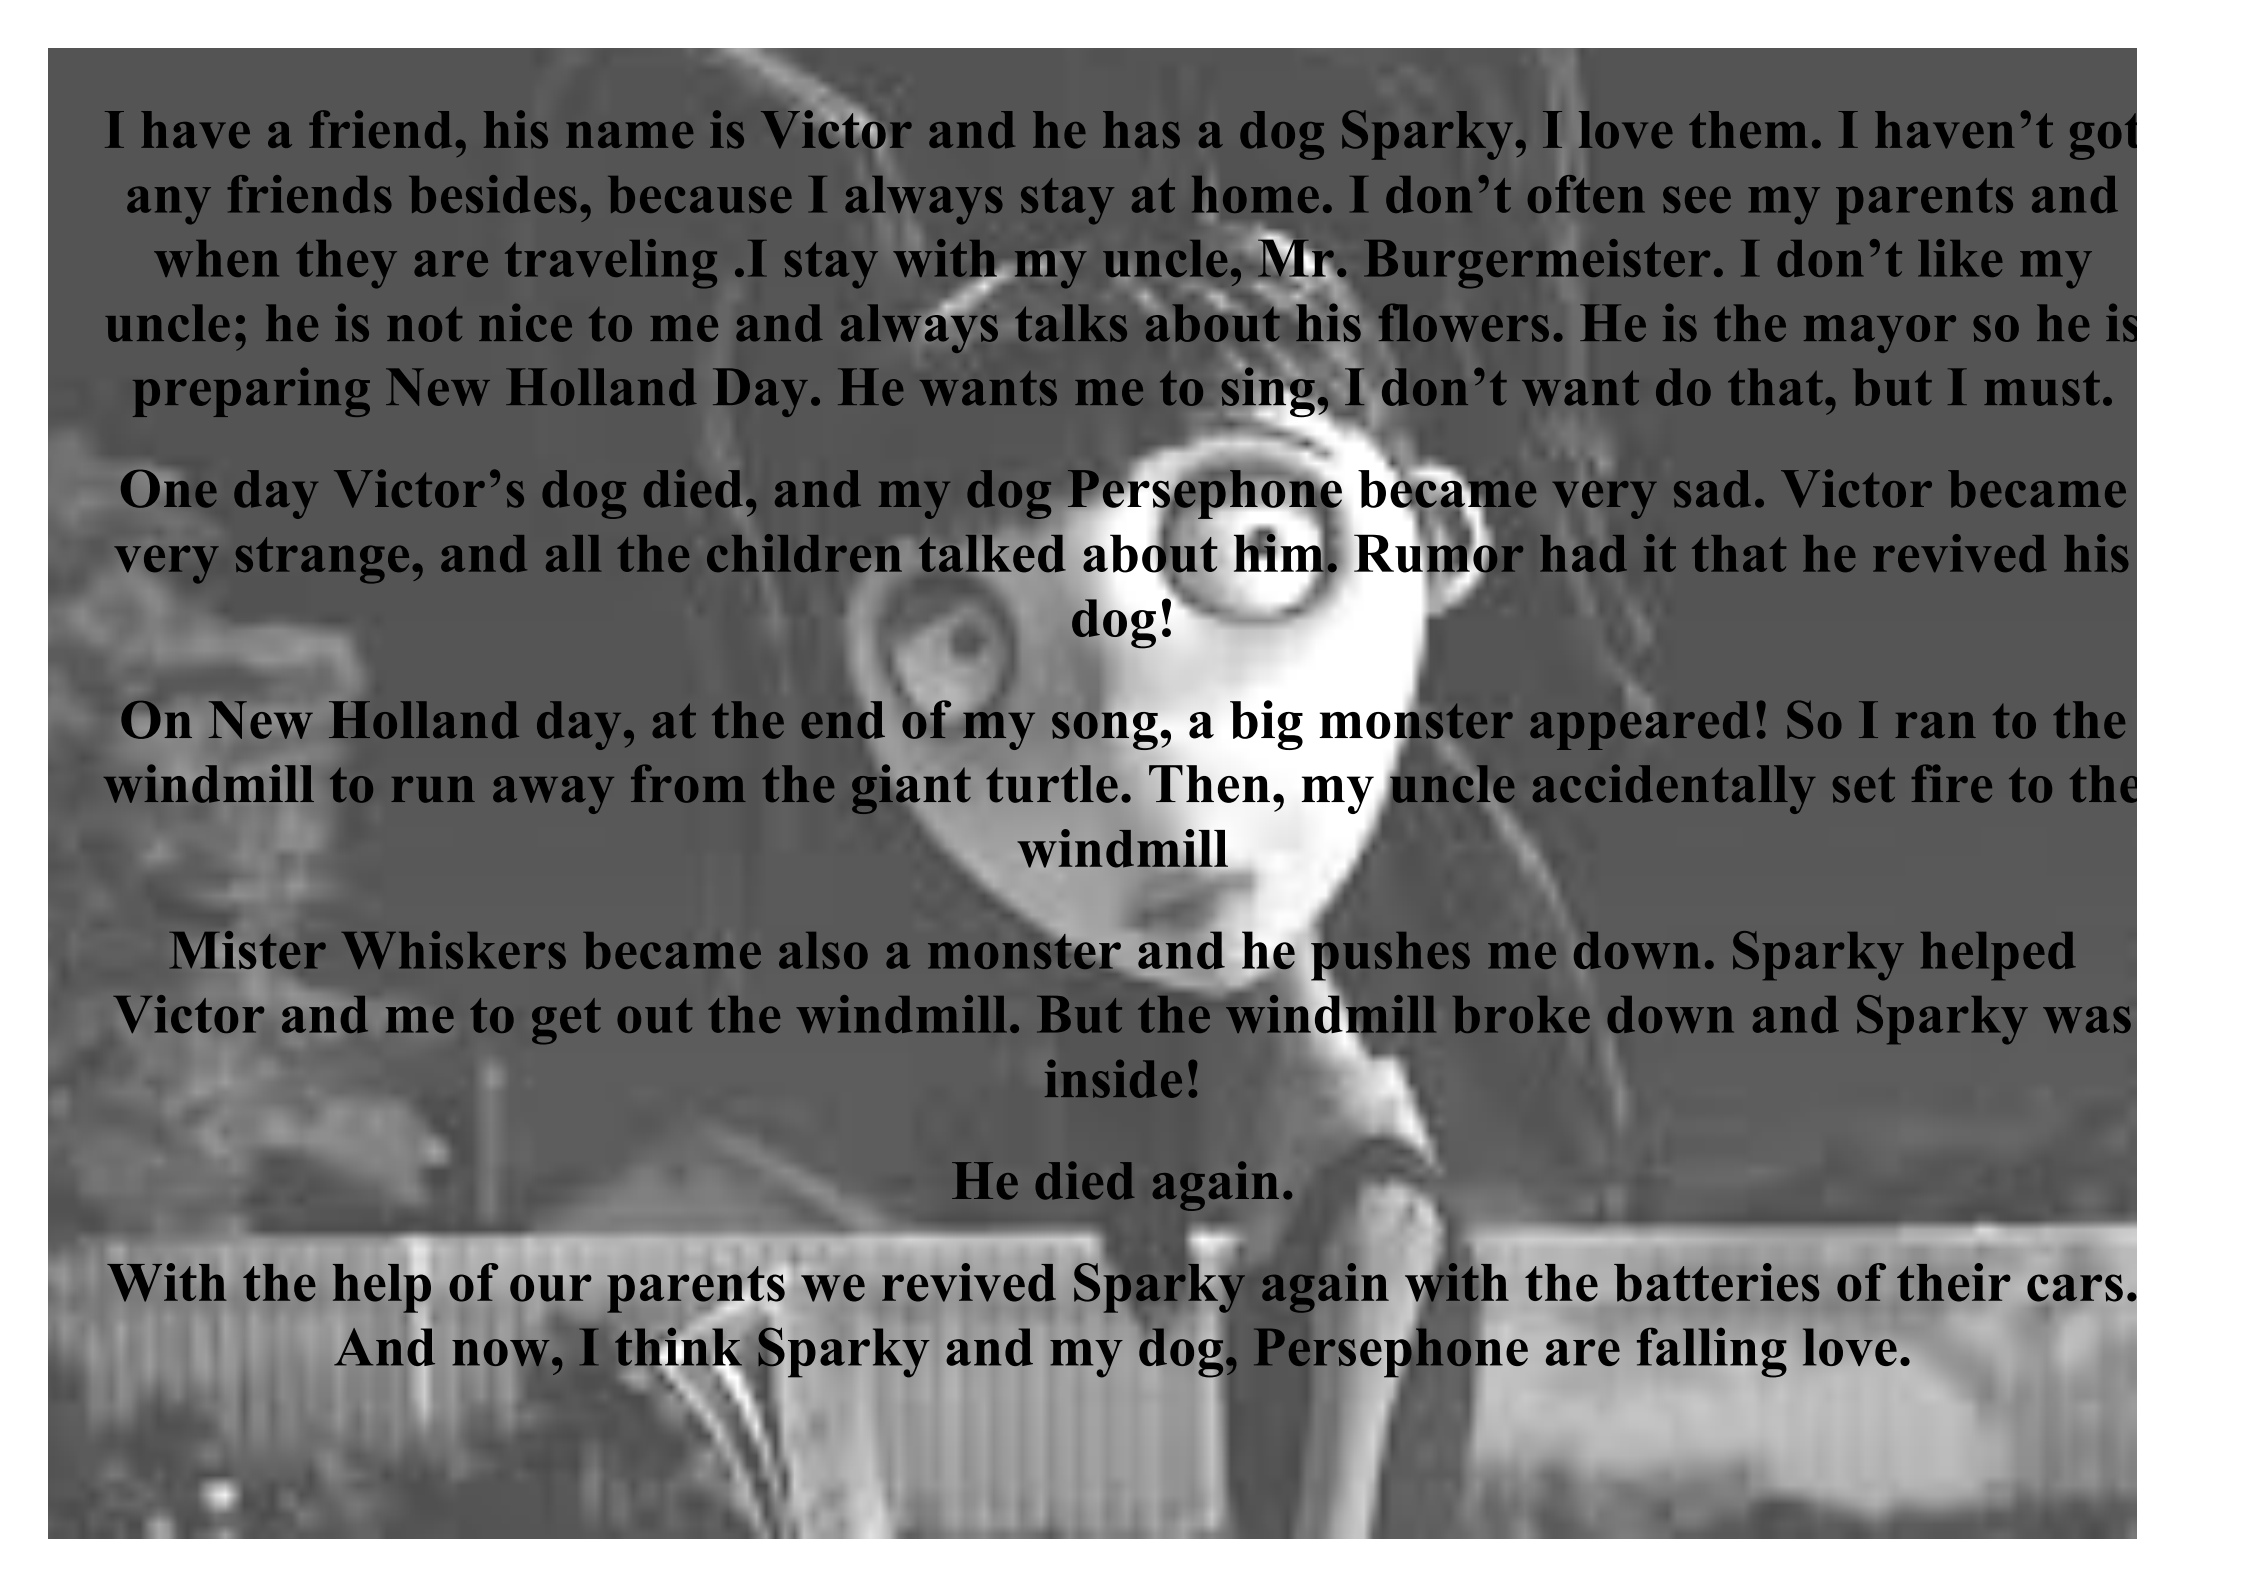

**The next day, after school, Victor showed me an authorization to take part in a
science competition.**

**I explained to Victor he must do sport if he wants me to sign his authorization. He
accepted and some days after, I saw it. He played baseball. We were very happy
to saw it. We cheered. He lost the first ball and the second ball. I cheered most
then I saw it, he was so concentrated. When Toshiaki was throwing, Victor stuck
the ball powerfully. The ball flew but Sparky ran after it. When the ball came to
the road.**

**Sparky took it in his mouth, when a car suddenly braked and hit him. Sparky
died, we were sad and Victor was disconsolate.**

The next day, my wife was reading when Victor came back home in a hurry.

**Some days after I heard my wife scream and I went to the attic when I saw
Sparky alive ...**

I have a friend, his name is Victor and he has a dog Sparky, I love them. I haven't got any friends besides, because I always stay at home. I don't often see my parents and when they are traveling .I stay with my uncle, Mr. Burgermeister. I don't like my uncle; he is not nice to me and always talks about his flowers. He is the mayor so he is preparing New Holland Day. He wants me to sing, I don't want do that, but I must.

One day Victor's dog died, and my dog Persephone became very sad. Victor became very strange, and all the children talked about him. Rumor had it that he revived his dog!

On New Holland day, at the end of my song, a big monster appeared! So I ran to the windmill to run away from the giant turtle. Then, my uncle accidentally set fire to the windmill

Mister Whiskers became also a monster and he pushes me down. Sparky helped Victor and me to get out the windmill. But the windmill broke down and Sparky was inside!

He died again.

With the help of our parents we revived Sparky again with the batteries of their cars. And now, I think Sparky and my dog, Persephone are falling love.

At the beginning, I played baseball with Victor but unfortunately Victor threw the ball in the street. Sparky caught the ball but a car struck him. When I learnt that Victor revived Sparky, I was jealous because Victor was

going to win the science prize. I threatened Igor to have the information's to revived the animals. I revived my turtle but she grew like a Big turtle I revived Colossus but he stayed small. I asked Victor for help because I couldn't control my monster. I want Colossus to kill Godzilla but he was too small so the turtle killed my monster.

Fortunately
Victor put on electric impulsions on the turtle and he died.

My name is Victor Frankenstein, I'm a little boy.

My best friend is my dog, his name is Sparky.

One day, I was playing baseball after school. I threw a ball on the road and Sparky ran after it. He was hit by a car.

I was shocked and disconsolate...

The next day, in Science class, I watched Mr Rzykrusky showing us the effect of electrical impulses on a dead frog. It gave me an idea.

Tonight I will go to the pet cemetery and I will bring back Sparky to my house. I will revive Sparky by means of the lightning ...
